SUMMARY

Front-end developer with 3 years of experience in HTML, CSS, Javascript, and React.js and successfully built 4+ projects to create captivating and functional web experiences. Excited to bring skills, creativity, and passion for front-end development to the organization and ready to contribute to impactful projects and grow within the team. Always open to learn new technologies.

PROFESSIONAL EXPERIENCE

COGNIZANT - Full Stack Developer(React.js); Mysore, India

Aug 2022 – Till Now

Projects - Education based quizzes app (Can't disclose name due to NDA), and 2 other projects

Tech stack - HTML5, CSS3, SASS, Javascript, Typescript, React.js, GraphQL, Recharts, Storybook

Responsibilities:

- Applied understanding of React fundamentals to promote better component lifecycle process and integrated thunk-middleware with Redux, Redux Saga for REST API services handling, achieving 30% faster load times.
- Managed a team of 5 developers handling multiple client-projects and ensured bug-free delivery within the specified deadline
- Worked on maintaining and improving the features in different client projects.
- Integrated map-based feature using libraries like google maps, leaflet and react-leaflet, providing smooth user experience and increasing their monthly users up by 15%.
- Efficiently implemented search, form data handling, and data fetching by using debouncing, resulting in 10% less consumption of API services.

Probuddy - Contract Front-end Developer (React.js); Singapore

Oct 2021 – jun 2022

- Delivered engaging user-experience through image and code optimisation and cross-browser compatibility, increasing average user Time on Page by +50 seconds.
- Refactored +3000 lines of legacy code, upgraded dependency libraries and improved maintainability of libraries.
- Developed extensively with Material UI, Storybook, Kendo React, etc for modular component reusability and theme management globally thereby mitigating the code duplicity by 60%.
- Used React-Hooks to handle lifecycle processes and integrated GraphQL increasing the data-fetching speed by 32%.
- Implemented Test Driven Development(TDD) using Jest, lowering the development costs by 25%.
